Catastrophe Response & Recovery for Multifamily Housing

Houston, TX

Houston, TX

Catastrophe Response & Recovery

Hurricane Harvey and an earlier-than-planned reservoir water release severely damaged the Carroll at Green Trails apartment community in Houston. Three hundred units, the leasing office, the maintenance garage and the pool cabana were affected.

ATI quickly deployed a team of large loss experts and equipment to assess the massive water damage, craft a comprehensive plan and launch a recovery effort. Services included contents inventory, disposal and cleaning, water extraction, interior demolition, exterior demolition, interior framing and exterior sheathing. ATI used state-of-the-art thermal imaging to pinpoint water damage and ensure complete dry-down of all impacted surfaces.

To expedite the recovery, crew members from ATI offices across the country were dispatched to oversee the work. With the additional manpower, technical expertise and appropriate equipment at its disposal, ATI completed the project on time.

About ATI Restoration, LLC

Established in 1989 by Gary Moore, ATI Restoration, LLC is the nation's largest family-operated restoration contractor. Headquartered in Anaheim, California, the company specializes in restoration, environmental and reconstruction services following natural and man-made disasters with an unwavering commitment to customer service.
